Nick,

Wednesday is not a good day for me. How about Thursday and at 11:00 as it will not take long I am sure as there is really nothing to see.

Subject: City of Portland Inspection

Good morning [REDACTED],

This week the City of Portland will be conducting our annual inspection of the SoloPower Systems facility located at 6308 North Marine Drive, Portland, OR 97203. The purpose of the inspection is to review compliance with the Industrial Waste Discharge Permit (# 433.051). Will you or a company representative be available on Wednesday July 11, 2018 at 9am to explain the industrial process, give a site tour, and provide records associated with your permit? I have some flexibility with the start time.

Our inspection will focus on:

- Wastewater generating processes
- Pretreatment system
- Documentation records applicable to the permit (pH calibration logs, training documentation, waste disposal manifests, etc.)
- Chemical storage areas

Friendly reminder, SoloPower's self-monitoring reports (SMRs) for April, May, and June are due by July 15th. Even if there was no production at the facility and no water discharged, the SMRs still must be submitted with the "no discharge this month" box checked. Please let me know if you have any questions/concerns.

Thank you -Nick
